

GFT138 Food Thermometer Product Manual

DESCRIPTION

GFT138 is a high-precision foldable electronic digital thermometer. Using international imported chips, the product has a compact structure and high temperature measurement accuracy. The probe can be rotated and folded 180°, which is convenient for temperature measurement. It has temperature locking and LCD backlight functions, which can be easily read even in dark environments. Widely used in temperature measurement of food, barbecue, beverage, milk, meat, candy, etc.

PARAMETERS

- Range: -50 to 300°C (-58 to 572°F)
- Resolution: 0.1°C or 0.1°F
- Accuracy: $\pm 1^{\circ}\text{C}$ (0 to 150°C), $\pm 2\sim 3^{\circ}\text{C}$ in other ranges
- Response time: 3-4 seconds
- Waterproof rate: Ip67
- Display: LCD with white LED backlight
- Power: 3.0V (1*CR2032)
- Auto shut off without operation for 10 minutes
- Material: Food grade 304 stainless steel probe, ABS housing
- Dimensions: 164*42*20mm
- Weight: 90g
