

# GWQ-MPH300 Multi-parameter water quality test meter

Product Manual

**DESCRIPTION**

GWQ-MPH300 is a new generation of portable multi-parameter water quality detection pen developed by our company. It has built-in automatic temperature compensation function. It has the advantages of high precision, good sensitivity, small size and light weight. It is widely used in tap water, water treatment, aquaculture, swimming pools Water and other water quality testing.

**FEATURES**

- Multiple parameters simultaneous detection
- Large screen display
- High precision
- Automatic temperature compensation
- Smart Calibration
- °C/°F switching
- One-click lock
- IP65 protection
- Power display
- 5 minutes automatic shutdown

**PARAMETERS**

Model	GWQ-MPH300
Measure parameters	pH , EC , TDS , Temperature
Range	0 ~ 14pH , 0~9999us/cm , 0~9999ppm , 0~60°C(32~140°F)
Accuracy	±0.05pH , ±2%us/cm , ±2%ppm
Operating temperature	0 ~ 60°C(32~140°F)
Temperature compensation	Automatic temperature compensation
Calibration method	pH: three-point calibration EC/TDS: single-point calibration
Automatic shut-down	5 minutes automatic shutdown
Power Supply	Battery powered (4*1.5V, LR44)
Size	183.5*40*20mm
Weight	93g

**DISPLAY AND KEYS**
